

This gel depicts the NEB 1kb ladder and a digestion of the plasmid **pDONR223-PRKAR2B** with the following enzymes: Single digests with PciI and BamHI

Plasmid 23667
pDONR223-PRKAR2B

DNA digested with **Single digests with PciI and BamHI** for 1 hour
Gel: 0.8% TAE stained with 100 ml 1X TAE and 5uL of ethidium bromide
Ran for 2.5 hours at 73 volts
