

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pEGFP-RNASEH1 with the following enzymes: EcoRI-HF.

Plasmid 108699:
pEGFP-RNASEH1

DNA digested with EcoRI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
