

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pKM491-Flag-His with the following enzymes: NotI-HF.

Plasmid 109282:
pKM491-Flag-His

DNA digested with NotI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
