

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pORFE0011 with the following enzyme(s): NheI-HF and EcoRI-HF.

Plasmid 112075:
pORFE0011

DNA digested with an NheI-HF single digest and an NheI-HF/EcoRI-HF double digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of SYBR Safe.
Ran for 1.5 hours at 100 volts.
