

This gel depicts the NEB 1kb ladder and a digestion of the plasmid retro-gRNA-eGFP with the following enzymes: HindIII-HF.

**Plasmid 116926:**  
retro-gRNA-eGFP

DNA digested with HindIII-HF single digest for **2 hours**.  
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
