

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pR26-CMVconst with the following enzymes: NdeI.

Plasmid 127373:
pR26-CMVconst

DNA digested with NdeI single digest for **2 hours**.
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
