

This gel depicts the NEB 1kb Ladder and a digestion of the plasmid pCRISPR-aBEST with the following enzymes: KpnI-HF

Plasmid 134977:
pCRISPR-aBEST

DNA digested with KpnI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
