

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pRDA_118 with the following enzyme: EagI-HF.

Plasmid 133459:
pRDA_118

DNA digested with a EagI-HF single digest or **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
