

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pET26b\_Nb.AT110 with the following enzymes: NcoI-HF and XhoI

DNA digested with NcoI-HF/XhoI double digests for **2 hours**.  
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
