

This gel depicts the NEB 1kb ladder and a digestion of the plasmid TFORF2358 with the following enzymes: NcoI-HF.

Plasmid 142046:
TFORF2358

DNA digested with NcoI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
