

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pGBW-m4133590 with the following enzymes: NotI-HF and PacI.

Plasmid 152377:
pGBW-m4133590

DNA digested with NotI-HF and PacI double digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
