

This gel depicts the NEB 1kb ladder and a digestion of the plasmid FLX1.8NFATGFPpd2HS4 with the following enzymes: MscI and BgIII.

**Plasmid 169096:**  
FLX1.8NFATGFPpd2HS4

DNA digested with MscI/ BgIII double digest for **2 hours**.  
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
