

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pgRNAkan-glpR with the following enzymes: EcoRI-HF.

Plasmid 169873:
pgRNAkan-glpR

DNA digested with EcorRI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
