

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pUC19/human IL-8 with the following enzymes: EcoRI-HF.

Plasmid 17610:
pUC19/human IL-8

DNA digested with EcoRI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
