

Plasmid Name: pCLXSN (GFP)-p100

Constructed by: Gongxian Liao

Date of Construction: 1/15/03

Seletion: Bacteria: Amp; Mammalian cell: no

Storage: common vector

Characterization: infection

Clone # characterized:

Cloning Information:

Cut p100 cDNA from pCMV4-p100A9 using EcoRI/BamHI and clone into the same sites in pCLXSN (GFP)

Restriction analysis:
