

This gel depicts the NEB 1kb Ladder and a digestion of the plasmid pλPR cl-Elysis with the following enzymes: Nde I

Plasmid 176891:
pλPR cl-Elysis

DNA digested with a Nde I single digest for **2 hours**.
Gel: 0.8% agarose stained with 10 uL of SYBR Safe
Ran for 1.25 hours at 100 volts.
