

This gel depicts the NEB 1kb ladder and a digestion of the plasmid p406 – TDH3-Elo3-GFP11-Ura with the following enzyme: KpnI-HF.

Plasmid 177734:
p406 – TDH3-Elo3-GFP11-Ura

DNA digested with a KpnI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
