

This gel depicts the NEB 1kb ladder and a digestion of the plasmid HA-Ubiquitin with the following enzyme(s): Scal-HF.

**Plasmid 18712:  
HA-Ubiquitin**

DNA digested with a Scal-HF single digest for **2 hours**.  
Gel: 0.8% agarose stained with 5 uL of SYBR Safe.  
Ran for 1.5 hours at 100 volts.
