

This gel depicts the NEB 1kb Ladder and a digestion of the plasmid pCas\_4(I-U)/1\_2\_VB with the following enzymes: AflII, Apal

**Plasmid 186445:**  
pCas\_4(I-U)/1\_2\_VB

DNA digested with AflII/Apal double digest for **2 hours**.  
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
