

This gel depicts the NEB 1kb Ladder and a digestion of the plasmid pLZRS-panTRK-CR1-EGFP with the following enzyme: Sac II

Plasmid 187194
pLZRS-panTRK-CR1-EGFP

DNA digested with Sac II single digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
