

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pDAC439 with the following enzyme: EcoRV-HF.

**Plasmid 195237:**  
pDAC439

DNA digested with an EcoRV-HF single digest for **2 hours**.  
Gel: 0.8% agarose stained with 5 uL of SYBR Safe.  
Ran for 1.5 hours at 100 volts.
