

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pDEST53-LRRK2-WT with the following enzymes: EcoRI-HF.

**Plasmid 25044:**  
pDEST53-LRRK2-WT

DNA digested with EcoRI-HF single digest for **2 hours**.  
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
