

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pcDNA3-Flag mTOR wt with the following enzymes: HpaI and PvuI-HF.

Plasmid 26603:
pcDNA3-Flag mTOR wt

DNA digested with HpaI/ PvuI-HF double digest for **2 hours**.
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
