

This gel depicts the NEB 1kb ladder and a digestion of the plasmid 37058 the following enzymes: Pac I and NHE I- HF

Plasmid 37058: pGCC4

DNA digested with Pac I and NHEI-HF single digests for **2 hours**
Gel: 0.8% TAE prestained with 4 ul of Ethidium Bromide
Ran for 2 hours at **47** volts
