

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pCW57.1 with the following enzymes: NotI-HF.

Plasmid 41393:
pCW57.1

DNA digested with NotI-HF single digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
