

This gel depicts the NEB 1kb extended ladder and a digestion of the plasmid Cas9 MDC32 with the following enzyme(s): EcoRI-HF.

**Plasmid 59185:**  
Cas9 MDC32

DNA digested EcoRI-HF single digest for **2 hours**.  
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
