

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pVITRO1-Trastuzumab-IgG1/k with the following enzymes: NdeI.

**Plasmid 61883:**  
pVITRO1-Trastuzumab-IgG1/k

DNA digested with NdeI single digest for **2 hours**.  
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
