

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pDestTol2CG2-U6:gRNA with the following enzymes: EcoRI-HF and Sac II.

Plasmid 63156:
pDestTol2CG2-U6:gRNA

DNA digested EcoRI-HF and Sac II double digest for **2 hours**.
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
