

This gel depicts the NEB 1kb Ladder and a digestion of the plasmid pAS1NB c Rosella I with the following enzymes: EcoRI-HF

**Plasmid 71245:**  
pAS1NB c Rosella I

DNA digested with EcoRI-HF single digest for **2 hours**.  
Gel: 0.8% agarose stained with 5 uL of ethidium bromide.  
Ran for 1.5 hours at 100 volts.
