

This gel depicts the NEB 1kb ladder and a digestion of the plasmid pC016 - LwCas13a guide expression backbone with U6 promoter with the following enzymes: NdeI.

Plasmid 91906:
pC016 - LwCas13a guide expression
backbone with U6 promoter

DNA digested with NdeI single digest for **2 hours**.
Gel: 0.8% agarose stained with 6 uL of ethidium bromide.
Ran for 1.5 hours at 100 volts.
